Units & sensible drinking guidelines

The UK government's advice for sensible drinking is not to regularly exceed more than 3-4 units per day for men and 2-3 units per day for women. They define binge drinking as consuming over 8 units a day for men and over 6 units a day for women.

Most measurements of drinking patterns are unit-based. In the UK, a unit is defined as 8g of alcohol. This is equivalent to:

A half pint of ordinary strength beer

*125ml (a small glass) of wine
(at 9% strength)*

One 25ml measure of spirits
